Specification

1. The user must have a java version 1.8 or higher installed.
2. Protobuf version 3.6.1 is also needed to run the program but we have already provided a protobuf.jar so installing the protobuf is not necessary.

To compile the program

```
javac -cp ../lib/proto.jar:../lib/protobuf.jar MainChat.java
```

To run the program

```
java GameServer 3
```

```
java -cp ../lib/proto.jar:../lib/protobuf.jar MainChat
```

Game Flow

1. The player will be asked to create or join a chat lobby.
2. Once the player is part of a chat lobby, the window will pop up.
3. The game will not start until all the players have joined the chat lobby.
4. Once all the players have joined, the game will start.

Game Controls
